EXPERIENCES

Full Stack Developer (Internship) - <https://superadmin.savior.molca.id>

PT Molca Teknologi Nusantara

Jan 2026 – May 2026

- Shipped 50+ production-ready deliverables across a monorepo architecture using Next.js and tRPC in an Agile environment.
- Designed an event-driven pipeline with Redis for async processing and improved system scalability.
- Adopted Drizzle ORM for end-to-end type safety and contributed actively in code reviews and sprint ceremonies.

Straight Deal Platform (Odama – Contract) – straightdeal.com

Back End Developer | Remote

Jan 2025 – Jun 2025

- Built backend infrastructure for a live car-selling platform serving 1,400+ users, with 72 REST API endpoints and full RBAC implementation.
- Secured the platform with JWT authentication and Google OAuth2; integrated Twilio (SMS) and SendGrid (email).
- Architected the end-to-end car submission workflow using Express.js, Prisma ORM, and Supabase.
